## KONFIGURASI FILE .env

- user, password, dan nama database
- public\_domain = alamat website jdih

## SECURITY AWARENESS

- ubah secara berkala **cookie\_validation\_key\_be** dan **cookie\_validation\_key\_fe**

## IMPOR DATABASE DARI FOLDER DATABASE

## CREATE KEY reCAPTCHA

<https://www.google.com/recaptcha/admin/create>

The screenshot shows the Google reCAPTCHA Admin interface. At the top, it says "Google reCAPTCHA". Below that, there's a button "Register a new site" with a left arrow icon. The main area has a heading "Get started with reCAPTCHA" and a sub-section "Add advanced features like MFA, spam/fraud protection & Google Cloud integration." It lists two benefits: "Up to 10,000 assessments/month at no cost" and "No Credit Card required".

**Label:**  8 / 50

**reCAPTCHA type:**  Challenge (v2)  Score based (v3)  "I'm not a robot" Checkbox  Invisible reCAPTCHA badge

Verify requests with a challenge  
Validate requests with the "I'm not a robot" checkbox  
Validate requests in the background

## Domains ⓘ

+ jdih.anggota.go.id

### Google Cloud Platform

It looks like you've used Google Cloud before. To get started, we'll create a new project and enable the necessary APIs.

### Adding reCAPTCHA to your site

We're still setting up reCAPTCHA settings in Google Cloud, but you can get started using the key details below.

It should take around 1 minute to completely setup. Once completed, you'll have unlimited assessments and the ability to use advanced features like MFA and Account Defender.

Use this site key in the HTML code your site serves to users. [See client side integration](#)

COPY SITE KEY

6LeBYooqAAAAAFsgWWsCwqA\_7hVCbFaTya3hLkcV

Use this secret key for communication between your site and reCAPTCHA. [See server side integration](#)

COPY SECRET KEY

6LeBYooqAAAAAEI1FWvCzvIPjheUa7cF\_8RL6mMH

## EDIT FILE

backend/views/site/login
